Viterbo Rodriguez

FULL-STACK DEVELOPER

BLOCKCHAIN SPECIALIST

SKILLS

Languages and Frameworks:

- Vue.js
- Quasar
- Node.js
- JavaScript
- TypeScript
- Solidity

Blockchain:

- Antelope (formerly EOSIO)
- Ethereum (EVM)
- Smart Contracts

Databases:

- MongoDB
- PostgreSQL

ABOUT ME

Computer Engineer with over 20 years of experience in Full Stack development, specialized in blockchain technologies (Antelope and EVM). Proven ability to lead complex projects from conception to implementation, enhancing functionality and operational efficiency.

EDUCATION

Computer Engineer

Faculty of Engineering (UDELAR)

• Training in developing, implementing, and managing comprehensive IT solutions.
• Notable skills in systems architecture, advanced programming, and technological project management.

EXPERIENCE

DevOps Tools:

- Docker

- Git

- CI/CD

LANGUAGES

- Spanish (Native)

- English (Advanced)

FEATURED PROJECTS

• **Telos Blockchain Block Producer:** *Technical and strategic administration of the Block Producer for Telos blockchain, increasing operational efficiency.*

• **Innovative dApps Development:** *Creation and optimization of decentralized applications that significantly improved blockchain technology interaction.*

Vapaée (Freelance)

Senior Frontend Developer + Blockchain (Antelope & EVM)

JAN2022 – PRESENT

• Development of decentralized applications (dApps) integrated with Antelope and Ethereum Virtual Machine (EVM).
• Operation and management of a Block Producer for Telos Blockchain (openrepublic.net).
• Coordination with international teams to optimize blockchain solutions.

Telos (Full-time)

Senior Frontend Developer + Blockchain (Antelope & EVM)

AUG 2022 – APR 2025

• Frontend development using Vue.js and Quasar Framework.
• Implementation and integration with Antelope and Ethereum blockchain networks.
• Significant enhancement of user experience on blockchain platforms, optimizing interaction and performance.

Intendencia de Montevideo (Full-time)

Full Stack Developer Analyst

2009 – 2021

• Design, development, and maintenance of comprehensive IT systems for municipal management.
• Increased operational efficiency through internal process optimization.
• Management and execution of municipal technology projects from conception to implementation.

Powerful Robot Games

Junior Game Developer

2007 – 2008

• Development and programming of engaging game mechanics.
• Collaboration with creative and technical teams on interactive games.
